

Priyanka Mehta

Dublin, Ireland — ✉ priyankamehta2127@gmail.com — ☎ +353 83 319 3708 — in priyanka-mehta21 — 🌐 priyanka603

Professional Summary

AI Engineer with hands-on, concentrated production experience building generative AI and agentic AI solutions end to end. Skilled in Python, Azure OpenAI, LangChain, LangGraph, and RAG architectures with practical experience applying solution design principles, prompt engineering, and evaluation frameworks to deliver secure, reliable, production-ready AI applications. Strong understanding of responsible AI practices, governance, and risk awareness for agentic systems, with experience contributing to the full delivery lifecycle from design and build through to deployment, monitoring, and optimisation.

Technical Skills

Programming & Backend: Python (NumPy, Pandas, Scikit-learn, PyTorch, Pydantic), JavaScript, SQL, FastAPI, Git
Generative & Agentic AI: Azure OpenAI, Microsoft Foundry (familiar), OpenAI API, LangChain, LangGraph, HuggingFace Transformers, Prompt Engineering, RAG Architectures, Agentic AI Workflows, Multi-Agent Orchestration, Tool-Calling, Embeddings, Semantic Search, FAISS, Pinecone, NLP
Automation: Power Automate (familiar), Event-Driven Architecture, Azure SDKs, Structured Output Design
Governance & Evaluation: LLM Evaluation Frameworks, Responsible AI Practices, Risk and Control Awareness for Agentic Systems, Hallucination Detection and Mitigation, Output Quality Assessment, Retrieval Precision/Recall Evaluation
DevOps & MLOps: Docker, Azure DevOps (CI/CD), GitHub Actions, Model Monitoring, PostgreSQL, Power BI

Professional Experience

AI Engineer — Techdome Pvt. Ltd. Indore, India

Jul 2024 – Feb 2026

- Built an **AI-driven Azure DevOps backlog automation platform**, using Azure OpenAI and LangGraph to design a multi-agent system that automatically generated and structured backlog items, reducing manual effort in sprint planning and reporting.
- Implemented **multi-agent orchestration** with agent planning, tool-calling, and self-correction loops, using Azure Cosmos DB for stateful agent memory and Azure Service Bus for event-driven communication between agents.
- Built the **conversational interface** using Azure Bot Framework, allowing team members to interact with the system directly and supporting regular use across the team once deployed.
- Designed and ran **evaluation and testing** for the system's outputs, defining quality checks for generated backlog items and refining prompts to reduce errors and improve consistency.
- Deployed and maintained the platform with **CI/CD via Azure DevOps**, contributing to monitoring and iterating on the system based on team feedback after launch.

Data Analyst Intern — Techdome Pvt. Ltd.

Indore, India

Jun 2022 – Aug 2022

- Processed **1M+ production records** using Python and SQL, improving dataset reliability for downstream AI pipelines.
- Built **Power BI dashboards** and optimised SQL queries. Reduced reporting latency by **40%** and improved data reliability by **30%**.

Projects

IrishPath — Immigration Navigator 2026

LangGraph, Azure OpenAI, FAISS, sentence-transformers, FastAPI, PostgreSQL, React, Docker Compose, GitHub Actions

- Designed and built an **agentic AI system** with a supervisor agent routing queries to specialist agents for RAG-based factual answers, checklist generation, and document explanation.
- Implemented **structured, auditable outputs** and a full containerised setup using FastAPI, PostgreSQL, Docker Compose, and GitHub Actions for CI/CD, built to production standards from design through to deployment readiness.

Compliance & Policy Document Q&A Assistant

2026

Python, LangChain, Pinecone, OpenAI API, FastAPI, Citation Retrieval, Evaluation Metrics

- Built a **RAG-based compliance assistant** answering questions over public regulatory and governance documents using Pinecone as the vector store, with every answer returning direct citations to the source document and section.
- Designed and ran a **retrieval evaluation harness** measuring precision and recall across a test set of policy questions, comparing baseline and tuned retrieval configurations to improve answer relevance.

Education

University College Cork

Cork, Ireland

Postgraduate Diploma in Data Science & Analytics

Sep 2023 – Jun 2024

Medi-Caps University

Indore, India

B.Tech in Computer Science & Engineering

2019 – 2023

Certifications

- The AI Engineer Path** — Scrimba 2026
- Data Analytics Job Simulation** — Deloitte Australia / Forage 2026
- AWS Cloud Foundations** — AWS Academy 2021
- Python for Data Science** — University of Michigan, Coursera 2020
